Saturday 24th February from 1:30pm to 5:00pm
Linkway Room, John Medley Building, University of Melbourne,
Grattan St, Melbourne

Diaspora communities in Australia contribute to positive change in their countries of origin. As this work is little known, this is a great opportunity for collaboration between diaspora organisations and others who work in this field.

The seminar will explore the policy and practice implications of diaspora activity and engagement in peacebuilding and reconciliation and explore opportunities for collaboration between diasporas and other actors in this field.
