

# RDI Network Program 2018-21

## Theory of Change

**VISION:** Effective, equitable international development through evidence and collaboration.

**MISSION:** More than the sum of the parts: bringing together enquiry, evidence, practice, policy, and people, to strengthen development outcomes.

### Australian Development Sector

(NGOs, other implementers and DFAT)

### ADOPTING

*ANGOs, other implementers, and DFAT are using RDI Network resources and advice, and research to inform development practice, policy, and discourse*

### RDI Network

(Individuals from: ACFID members, universities, private sector implementers, DFAT, consultancy organisations, and consultants)

### RESEARCHING AND SHARING

*The RDI Network community is collaborating in ethical research for development, and effectively communicating and engaging with findings, knowledge and evidence*

**End-of-program outcome 1 (EOPO1):** RDI Network members are actively debating and synthesising current development thinking and ideas

**End-of-program outcome 2 (EOPO2):** RDI Network members are identifying and addressing opportunities, incentives and barriers to the production and use of policy-practice-relevant research

**End-of-program outcome 3 (EOPO3):** RDI Network member skills in research communication and uptake are improving

### Program

(RDI Network Secretariat and Committee, supported by DFAT)

### CONVENING

*The RDI Network Secretariat and Committee are facilitating and convening network processes*

RESEARCH FOR  
DEVELOPMENT  
IMPACT NETWORK

A collaboration between  
the Australian Council for  
International Development  
and Australian universities
